1951 AWARDS FOR HIGH PRODUCTION
TO CHINESE PEASANT ORGANIZATIONS, INDIVIDUALS

8

The Central People's Government of China has issued the second national list of individuals and peasant organizations that achieved high crop production records in 1951, with production figures and awards granted.

For outstanding general production, seven state farms, eight villages, and 15 agricultural production cooperatives and mutual aid teams were granted awards.

Rice production awards were granted to 17 mutual aid teams, each of which produced over 600 catties per mou (one mou equals one-sixth acre and one catty equals 133 pounds), and 69 individuals, each of whom produced over 850 catties per mou.

Wheat production for which recognition was given ran from 495 catties per mou on nonirrigated land to 710 catties on irrigated land. Cotton production ran from 227 catties per mou to 843. Millet production ranged from 550 to 1,070 catties per mou, corn from an average of 760 to a high of 1,520 catties per mou.

Awards were given livestock owners for high breeding and maintenance records. Four mutual aid teams were given awards for high output of marine products. Awards for outstanding production of hemp, jute, tobacco, barley, fresh fruit, cabbage, and tubers were also granted.

Beiping, 11 June 1952 -- The second list of individuals and organizations to receive recognition from the Central People's government for high production records in 1951 includes 220 persons and organizations and covers general records and specific records for particular crops or accomplishments. Banners, certificates, decorations, and cash prizes have been awarded.

STAT

There were 24 awards for high production of cotton, four of which were given to MAT. One Shansi MAT produced 460 catties per mou of seed cotton on irrigated land. Two others produced 313 and 301 catties per mou, respectively, on nonirrigated land. One MAT in Liaosi produced an average of 227 catties per mou on 30 mou of land. The above MAT were awarded patriotic production certificates and 2 million yuan each. Their leaders were decorated.

Individuals given awards for high cotton production were located as follows: Shansi 7, Pingyuan 3, Hopeh 4, and one each in Liaosi, Kiangsi, Shansi, South Kiangsu, North Kiangsu, and Shantung. Nine of these working irrigated land produced from 413 to 843 catties per mou of seed cotton. Eleven individuals working nonirrigated land produced from 400 to 515 catties per mou. They were awarded new record certificates and decorations and two were given one million yuan each in cash prizes.

Fourteen record millet producers were recognized, 3 in Hopeh, one in Pingyuan, one in the Inner Mongolia Autonomous area, 5 in Shantung, 2 in Heilungkiang (in Mongol banner areas), one in Kirin, and one in Jehol. Production was from 770 to 1,070 catties per mou on irrigated land and 550 to 954 catties per mou on nonirrigated land. They were awarded new record patriotic production certificates and decorations. Two were awarded one million yuan in cash each.

One APC and 11 individual outstanding corn producers were recognized. The APC in Shansi produced 900 catties per mou on 8 mou. It was awarded the new record patriotic production certificate and 3 million yuan. Its leader was given the patriotic production decoration. The 11 individuals, 3 in Shansi, one in Ho, one in Chahar, 2 in Shantung, one in North Kiangsu, one in Sinkiang (Uighur nationality), one in Jehol, and one in Liaotung produced an average of 760 catties per mou on their high production plots. The highest record was made by one Liu Wan-fu in Hopeh with 1,520 catties per mou. These producers were awarded new record or patriotic production certificates and four were awarded one million yuan each.

Awards for outstanding performance in grazing numbered nine: 2 in Jehol (Mongols), 2 in the Inner Mongolia Autonomous Area (Mongols), 3 in Chahar (one Tibetan), one in Sinkiang (Tatar), and one in Ningsia. These individuals were recognized for special livestock breeding and maintenance records. One man had a 100 percent breeding record for 5 years. Another had a 90 percent breeding record and a 100 percent maintenance record. They were awarded new record certificates or patriotic production decorations and cash prizes.

Four MAT, one each in Shantung, Liaotung, Heilungkiang, and Liaosi, caught 26 percent more marine products than the average in their areas. They were awarded patriotic production certificates and 2 million yuan each. Their leaders were awarded patriotic production decorations.

Fiber production (other than cotton) recognition was given to four persons, one in Kiangsi for production of 1,000 catties of hemp (yang-ma) per mou, one in Chekiang and two in Kiangsi for production of 700 to 800 catties of jute per mou. The hemp producer was awarded a high production certificate and decoration and one million yuan. The jute producers were awarded certificates and decorations. A tobacco production of 500 catties per mou in Honan, peanut production of 1,000 catties per mou in North Kiangsu, barley production of 800 catties per mou in North Kiangsu, fresh fruit production of 600 catties per mou in Tsinghai, and two records of 16,000 and 19,000 catties per mou of cabbage in Hopeh were recognized by certificates and decorations.

Two tuber producers in Shantung, two in Fukien, one in Chekiang, one in Hopeh, and one in Heilungkiang were recognized. Potato production of 5,000 catties per mou and sweet potato production of 7,000 to 11,689 catties per mou were attained. New record certificates, patriotic production certificates and decorations were awarded to these producers. Two were awarded one million yuan each.
